"WORLD BEATER" ROSES

SEE FIRST COVER PAGE FOR THESE ROSES IN COLORS

THERE ARE NO BETTER ROSES THAN THESE FIVE "WORLD BEATERS"

The "WORLD BEATER" ROSES, 25 cents each, the five for \$1.00. In two-year-old plants, 50 cents each, the five for \$2.00.

No. 1 ROBIN HOOD—This new Rose has a glorious scarlet color that is at once soft and bright and lasting; the bloom is full and of the beautiful build of the H. P's. We feel sure this will prove a delightful companion for General McArthur and Rhea Reid.

No. 2 SENATEUR MASCURAND—This is our pick of all the yellow Hybrid Tea Roses; it is a good grower, very free bloomer; flowers are large, full and globular; color deep orange-yellow, lighter on the edge of the petals. This is a much better garden Rose than Mrs. Aaron Ward. When we say orange-yellow we do not mean lemon-yellow; it is the yellowest of all Roses.

No. 3 RADIANCE—A new American Rose; there are none better. A brilliant rosy-carmine, displaying beautiful rich and opaline-pink tints in the open flower. The form is fine, largest size and full, with cupped petals. It blooms constantly and is delightfully fragrant. This is next to President Taft, the strongest growing of all H. T. Roses. Simply grand; superb.

No. 4 MADAME SEGOND WEBER—One of the grandest novelties of recent years; everybody is talking about it, and the more one knows of this wonderful Rose the more he will talk about it, and, what is of real value, every bit of talk about Mme. Segond Weber is in praise of her. Rosy-salmon or flesh-pink in color, of the general type and color of "My Maryland." The bud is long and pointed, opening into enormous blooms which deepen its color until fully expanded, when it is as impressive as an "American Beauty." The texture of the Rose is very thick and heavy and the form of the petals peculiarly beautiful. A great garden Rose; awarded two gold medals.

No. 5 MRS. CORNWALLIS WEST—This Rose was sent out in 1911 by the great Irish rosarian, McGredy. A truly magnificent and absolutely distinct Rose of huge size and great substance, with exquisitely imbricated globular form. The purity of the transparent delicate pink—which is between a shell and a rose-pink—on the purest white, gives it an attraction all its own, that it is simply impossible to convey. Awarded gold medal, National Rose Society.

G. & R. GIANT DAHLIAS

See opposite page for these Dahlias in color. These are the largest of all Dahlia flowers.

No. 1 MRS. ROOSEVELT—One of the giant flowered type, delicate light pink shading to soft rose towards the center. An exceptionally large and elegantly formed flower measuring seven to eight inches across. Greatly admired by all. An abundant bloomer. Many of the plants of this choice Dahlia do not make tubers like other Dahlias, but grows and flowers from eyes on the stems. A wonder. Price, 40 cents each.

No. 2 MRS. CHARLES TURNER—Bright canary-yellow. Flowers of immense size, often measuring from seven to nine inches in diameter. This surpasses anything for size in yellow Dahlias. Try it. Price, 20 cents.

No. 3 CUBAN GIANT—Flowers of great size, measuring six inches across. Color dark, glowing crimson, shaded maroon. Magnificent. Price, 25 cents.

No. 4 SOUVENIR DE GUSTAVE DOAZON—The largest Dahlia up to date. Can you imagine a Dahlia nine and one-half inches across? Simply a monster, still it is not coarse, but has such elegant refinement that it impresses every lover of flowers with its grace, beauty and charming elegance, and never fails to make friends. These immense flowers are borne in profusion from the earliest moment of blooming until the very last; it improves with the season and grows more perfect; color a rich orange-red. Price, 30 cents each.

No. 5 CATHERINE DUER—(The Newport Dahlia.) Cherry-scarlet overlaid with crimson. Darker at the center. Its iridescence is unique and very striking, winning much favor as a cut flower variety. The fashionable flower at Newport. Especially good under artificial light. Price, 20 cents each.

SPECIAL OFFER—The entire set of five G. & R. Giant Dahlias, costing \$1.35, for only \$1.00. A great bargain.

THREE GRAND PEONIES

Hardy everywhere. See third page of cover for these grand Peonies in color.

PRINCE IMPERIAL—Large, well-formed, brilliant amaranthine flowers with scarlet shadings on long, strong, wiry stems; very free bloomer in clusters; habit vigorous; erect and compact. This grand red Peony arrests immediate attention when our fields of Peonies are in bloom on account of its brilliant coloring; simply superb.

LADY LEONORA BRAMWELL—Pink Peonies may come and pink Peonies may go, but Lady Leonora Bramwell goes on forever. There are more of this charming variety sold than any other half dozen sorts of pink. A delightful shade of glowing bright pink.

FESTIVA MAXIMA—This is not only the finest white in existence, but many regard it as the queen of all the Peonies. Mr. Harrison says: "This flower has reached the ultimate beyond which we cannot go. Here at the door stands Festiva Maxima, white as the soul of the Madonna, with now and then a blood drop, as though the iron had sometime entered her heart. What a marvelous flower!" It combines enormous size with wondrous beauty; often seven to eight inches in diameter. Clear carmine spots on edge of center petals. For over sixty years it has held first rank, and is still the standard of perfection by which all other Peonies are judged.

Price of Grand Peonies, 50 cents each, or the three choice kinds for \$1.00. You cannot duplicate this price.

New Fern Roosevelt.

The Grandest Fern of the Age, Nephrolepis "ROOSEVELT"

SEE THIS WONDERFUL FERN IN COLORS ON FOURTH PAGE OF COVER

It is our good fortune and great pleasure to offer this wonderful new Fern. In general characteristics it resembles the world famous Boston Fern, but it will sweep that Fern from the boards for two reasons; it produces many more fronds than the Boston, thus making a bushier, handsomer plant. Then the pinnae are beautifully undulated, giving the Roosevelt a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. The photo shown is taken from an eight-month old plant sent to Ex-President Roosevelt. Everybody will want this grand Fern. Fine young plants, 35 cents. Strong plants, 75 cents. Extra strong plants, \$1.25.

GREETING

Another year has rolled around and we present you with our modest catalogue. Always bear in mind that it is not the fine, expensive catalogue that you desire, but when you place an order your requirements demand that your purchase should grow and bloom. That's what has made the G. & R. plants so famous all over the world, until today no firm can approach us in the amount of mail order business in Roses, Plants, etc. From a very modest beginning in 1887 we have grown until today we lead the world in four specialties, viz.: Roses, Dahlias, Peonies and Phlox. These require over a hundred acres and over a hundred large greenhouses to produce. We not only sell our own product, which is enormous, but we contract one year ahead for every plant that five other large establishments grow. We thank one and all for past favors and trust we may merit a continuance of same.

ROSE AFTER = SATISFACTION

When you buy G. & R. Roses you get along with them the after-satisfaction—that sense of realizing all the success that should come from planting quality Roses, the knowing that no better results are possible to be obtained outside of G. & R. Roses. It is the after-satisfaction that has compelled us to plan to grow for the coming season one million additional Roses. Think of it, the after-satisfaction selling five million Roses, and demanding a million increase in one year. Going some? you say. Yes, but are you getting your share of this Rose after-satisfaction? If not, why not? Plant G. & R. quality Roses. None better, none so good.

G. & R. WAY TO BLOOM ROSES

First plant G. & R. quality Roses. Do this in the spring after all frost is past. Cultivate intensely for two weeks—that is hoe your bed thoroughly at least twice a week; then go to the stable and get some fresh, straw horse manure and mulch the bed, completely covering the ground to the depth of three inches right up to the Roses, but do not cover the tops of the plants. Then give a thorough soaking with water. After this only water, should the ground become dry. About all you will have to do after this is done is to whet up your knife and cut Roses.

The writer put out three thousand small Rose plants at his home in Springfield the past spring. The neighbors all said: "What are you planting those small Roses for?" Did they laugh? Yes. Roses planted last week of May, gave four good hoeings, mulched them second week in June. Result: (I began to laugh) Roses commenced to bloom June 20th, increasing every day, until during July, August and September, literally thousands of Roses were cut. One woman said: "Why, you can cut a wagon load today." On October 10th these small bushes of only a few inches high had grown to be large branching plants two to three feet in height, and, after several frosts at this time, are loaded with bloom, and what buds and flowers, so large and beautiful. This result can be obtained by anyone, if they will do four things: Plant G. & R. quality Roses, cultivate, mulch and water as directed. It isn't luck; it's just doing the right thing with the right Rose. We will ring this in the Rose growers ears of America until every one will know of it. Try it.

HYBRID TEA ROSES Newer Varieties

This is a class of recent creation, embodying the delicate shades and peculiar fragrance possessed by the Tea Roses combined with the vigor and more pronounced pink and crimson shades of color previously confined to the Hybrid Perpetual class. In our opinion the Hybrid Teas will supersede all others because of their superior constitution and marvelously free flowering qualities. In a sentence it may be said they combine all the better traits of the two classes from which they sprung, altogether a great advantage. Almost all are highly perfumed, an attribute absolutely essential to a perfect Rose.

ANDRE GAMON—A very vigorous grower of erect, branching habit; fine bronzy foliage, with long finely shaped buds; the flowers are large, full and globular, carried well above the foliage upon rigid and strong stems. Color deep rose and carmine. Edges of petals carmine-lake. As a garden Rose this will become popular on account of its distinct soft color and its remarkably free flowering qualities and hardness. Price, 20 cents each; two-year-old, 40 cents.

Edward Mawley.

CHATEAU DES CLOS VOUGEAT—You have all been looking for the black Rose, and here it is. The most wonderful color and texture ever seen in a Rose; looks as if cut out of heavy velvet with a color shading from deepest velvety maroon-red to blackish-crimson. We are sure it will become one of the most popular of garden Roses, quite in a class by itself, blooming continuously in crops closely following one another. It is of fine shape, good size and the richest colored of all Roses, being fifty per cent. darker than Prince Camille de Rohan and Jubilee; quite fragrant. With us the foliage of this Rose is absolutely resistant to black spot and mildew; in a class by itself for this reason alone. Keep your eye on this Rose, as it is a wonder; named after a vintage of famous old French wine. Price, 25 cents each; two-year-old, 50 cents each.

DOUBLE PINK KILLARNEY—The Killarney that will supersede the Killarney now grown. We have confidence in recommending this variety as a distinct improvement on the normal type, as it possesses from ten to twelve more petals than its parent. Awarded certificate of merit by the American Rose Society. Price, 20 cents each; two-year-old, 40 cents each.

DOUBLE WHITE KILLARNEY—A pure-white sport from White Killarney; has a much larger bud, double the size of the ordinary White Killarney; has many more petals than its parent. A great garden Rose. Price, 25 cents each; two-year-old, 50 cents each.

DUCHESS OF WELLINGTON—Intense saffron-yellow suffused with rich crimson which, as the flower develops, becomes deep coppery-yellow, a shade of colors hitherto unknown among Roses; the petals are large and of great substance; free flowering and of delightful fragrance. A great acquisition to the garden Roses. Price, 25 cents each; two-year-old, 50 cents each.

EDU MEYER—A most beautiful combination of coppery-red and yellow; very floriferous. Superb. Price, 20c each.

EDWARD MAWLEY—Raiser's description: "By its marvelous outstanding qualities, is now generally regarded by rosarians as the greatest advance and most wonderful Rose yet raised. We have no hesitation in stating that it is the finest of all dark-crimson Roses, a true perpetual flowering Hybrid Tea, and the most beautiful variety the Rose world has yet seen. Gold Medal, National Rose Society. The grand novelty of Messrs. McGredy & Sons, they have very aptly named Edward Mawley, in honor of one of the best-beloved of British rosarians. It is an enormous, big-petaled Rose, much larger than Melanie Soupert; a Rose it resembles in form, but of the beautiful rich color of a Louis Van Houtte, only with a more velvety shading upon the inside of its petals. This Rose could not fail to receive the coveted gold medal of the National Rose Society." Price, 35 cents each; two-year-old, 75 cents each.

HYBRID TEA ROSES==Continued.

ETHEL MALCOLM—No Rose for many years created the same sensation among Rose growers as this superb variety when it was awarded the gold medal of the National Rose Society. The color is ivory-white passing to a purer white when the flower expands with a delicate peach shading in center of bloom. A truly lovely color. A fine novelty. Price, 25 cents each.

EUGENE BOULLET—This will become a standard variety. It has all the ear-marks of a good Rose. Vigorous grower; free bloomer. The blooms are of the largest size; the color a rich ruby-red, and of delicious fragrance. A No. 1 variety. Price, 20 cents each; two-year-old, 40 cents each.

FARBENKONIGEN—This is well named the Queen of Colors; our own personal opinion is that there is no finer Rose grown than this beautiful sort. It is large and full; color bright carmine and rosy-crimson, overlaid with a satiny-silver sheen. Very floriferous. Simply grand. Price, 25 cents each.

FLORENCE EDITH COULTHWAITE—An exquisitely beautiful bedding variety that can be classed as a substantial "fancy." The blooms are large and full, of perfectly imbricated form, the edges of the petals beautifully ruffled. Color, deep cream stippled with bright rose on the inside petals and reflected on the back, thus creating an indescribable delicate orange and peach glow; quite distinct. One of the best. Price, 20 cents each; two-year-old, 50 cents each.

F. R. PATZER—A most beautiful and distinct Rose of very free flowering character. The blooms are produced with great freedom on stiff stems, and are of large size and substance. The color is creamy-buff, back of petals delicate warm pink; as the petals reflex the color becomes light orange-pink, forming a most charming combination. Valuable for garden culture. Price, 20 cents each; two-year-old, 40 cents each.

GARTENDERECTOR HARTRATH—Very large double flowers, with long elegantly pointed buds on stiff stems. Very free. Color satiny-flesh, very bright and very fine. Price, 20 cents each; two-year-old, 40 cents each.

GOLDELSE—Pale yellow, with deeper yellow center; a charming color. Very free bloomer; deliciously fragrant. Price, 20 cents each.

GROSSHERZOG FRIEDRICH—Everybody who gets this Rose will thank us for offering it. Color bright rosy-vermilion, overlaid with a yellowish cast. Awarded the highest prize at Mannheim. Price, 35 cents each; two-year-old, 75 cents each.

HERZOGIN MARIE ANTOINETTE—Very long buds of pure orange or old gold; very large flower of perfect form. Sou-

Farbenkonigen.

Jonkheer J. L. Mock.

pert & Notting, of the Grand Duchy of Luxembourg, says: "This is the finest yellow of all yellow Roses." Gold medal, M. Gladbach; certificate of merit of the German Nurserymen's Society; also prizes of honor at Leipsic, Sangerhausen and Zweibrücken. Price, 25 cents each.

JACQUES VINCENT—Color clear coral-red with tints of yellow, in the way of Lyon Rose, but with deeper coppery center. Large, elegant and free. Fine for bedding and cutting. A superb Rose. Price, 20 cents each; two-year-old, 40 cents each.

JAMES COEY—Deep golden-yellow; edges of petals white. In the bud state the form is perfection and the color a delightful shade of orange-yellow. For bedding purposes and for cut bloom this Rose will be much appreciated, and for such purposes we recommend it with confidence. Price, 20 cents each; two-year-old, 40 cents each.

JOHANNA SEBUS—Large flowers, full and double; color brilliant rosy-cerise. Deliciously fragrant. Price, 20 cents each; two-year-old, 40 cents each.

JONKHEER J. L. MOCK—This grand Rose is the strongest growing in the Hybrid Tea class. The blooms, which are produced with the greatest freedom, are carried on stiff and erect stems, and are of the largest size, of perfect formation and highly perfumed. Color clear imperial-pink; a glorious flower. Awarded two gold medals, one silver medal and five first prizes in Europe. We can confidently recommend this sterling novelty as a most valuable addition. Price, 25 cents each; two-year-old, 50 cents each.

KILLARNEY QUEEN—A cerise-pink sport of Killarney that for clearness and brightness of color has not been equalled; exceptionally strong in growth, with foliage that is perfect, being larger than Killarney and more glossy. In size of petals Killarney Queen is larger than its parent, and for high-grade bloom it is a very superior variety. Forces fine. Price, 25 cents each; two-year-old, 50 cents each.

LADY ALICE STANLEY—This, we predict, will become very popular as a garden Rose. The petals are shell-shaped, forming a perfect flower; the color on outside of petals is a deep coral-rose; inside, delicate flesh, often flushed and suffused with bright flesh. Remarkably attractive, without doubt; a magnificent Rose. Awarded gold medal. Price, 25 cents each; two-year-old, 50 cents each.

LADY ASHTOWN—Deep rose, shading to silvery-pink, with touches of yellow at base of the petals; large, full and fine form, free and constant. A grand garden Rose, much prized in England. Price, 25 cents each.

HYBRID TEA ROSES==Continued.

LADY QUARTUS EWART—This is a pure paper-white garden Rose; large, full and opening well in all weathers. It is very free-blooming and has extraordinary lasting properties, keeping in good condition for several days when fully expanded, either cut or on the plant. An ideal garden Rose. Price, 25 cents each.

LADY URSLA—Color a most beautiful shade of flesh-pink, of great substance and good form; petals large, circular and delicately perfumed. A grand grower, producing its round, full blooms in wonderful profusion. Price, 20 cents each; two-year-old, 40 cents each.

LA HOLLANDE—Growth robust and of free branching habit; flowers very large, full and well formed; color almost white, with rosy-yellow center. Undoubtedly the finest of all outdoor Roses. Price, 20 cents each.

LIEUTENANT CHAURE—Bud long and pointed; color velvety-crimson, opening to large flowers of crimson-red, shaded garnet; flowers of great depth and nicely cupped form; flowers very freely produced and deliciously fragrant. In every way a grand Rose. Price, 25 cents each.

MABEL DREW—A truly magnificent Rose, superb in every respect. The blooms are large and full, carried on strong and erect flower stalks; the color is deep cream on first opening, passing to intense canary-yellow in the center as the bloom develops; has the delicious, refreshing perfume of the Tea Roses. Awarded by a unanimous vote the gold medal of the National Rose Society. Price, 35 cents each; two-year-old, 75 cents each.

MADAME JULES BOUCHE—A beautiful white suffused with salmon-pink center, deeply shaded with virginal pink; large and full. This Rose has won numerous medals and awards. Price, 20 cents each; two-year-old, 40 cents each.

MADAME JOSEPH COMBET—Creamy-white, very large and full; in this respect like *Souvenir de La Malmaison*. It is a Rose of great substance. Climbs moderately; could be classed as a pillar Rose. A fine variety. Price, 20 cents each; two-year-old, 40 cents each.

MADAME LEON SIMON—Growth vigorous and upright; flower buds long and pointed. Color dark rose with yellow center, reverse of petals carmine; very floriferous. Superb. Price, 20 cents each; two-year-old, 40 cents each.

MADAME RAVARY—It is probable that more of this yellow Rose is planted in England, Ireland and the Continent than all other yellows combined. In growth and habit it is much like *Madame Caroline Testout*, and will always command a good price, being difficult to propagate. Long pointed buds of beautiful golden-yellow, opening to large, full orange-yellow flowers; very free flowering. Superb. Price, 25 cents each; two-year-old, 50 cents each.

MADAME SEGOND WEBER—For description see first page, also for this Rose in colors, see first cover page. Price, 25 cents each; two-year-old, 50 cents each.

MADAME VALERE BEAUMEZ—Cream, yellow and orange are the colors in this queenly Rose. All the tints exquisitely beautiful, form very full and nicely rounded; a strong grower. We feel sure that this Rose will rank in the dozen best bedders. "Standard" in all necessary qualities, "fancy" in its coloring. Price, 25 cents each; two-year-old, 50 cents each.

MADAME P. EULER—Vermilion-pink changing to silvery-pink; very large, very full and possessing great lasting properties, perfect form; fragrant. Awarded first prize and gold medal at Clermont. Price, 20 cents each; two-year-old, 40 cents each.

MANUEL P. AZEVEDO—The introducers say: "A splendid large double, upright flower of an ideal form. Color fresh cerise-red, with waxlike petals. This first-class novelty has the hardness and splendid form of *Ulrich Brunner* and is as free-blooming as *Etoile de France*, one of the first and finest blooming in the Rose garden. A new, rare and invaluable color; sweetly perfumed." Our Mr. Frank Good says: "This Rose has come to stay; it has already made for itself a place that is secure." Price, 35 cents each.

MARIE DELESALLE—As free in growth as *Teplitz*, flowering continuously; buds long and elegant, opening into lovely blooms of fine form and large petals; color bright deep cerise. A decidedly free bedding Rose. Price, 25 cents each; two-year-old, 50 cents each.

MARY COUNTESS OF ILCHESTER—In the opinion of many expert rosarians this must be classed as one of the finest novelties. Mr. Roger Murphey, who has worked with Roses for the past forty years, says: "This Rose has come to stay. After trying out all the novelties of the past five years, I place the Countess Mary first." The color is unique and distinct, being a warm crimson-carmine, a shade difficult to describe; of great size, with large, smooth, circular petals, deliciously scented. Simply grand. Price, 25 cents each; two-year-old, 50 cents each.

MAY KENYON SLANEY—A Rose of wonderful distinctness and charm, possessing a wondrously profuse and continuous flowering habit; the blooms are large and of wonderful finish; the color is a charming bluish-pink on rich cream, the pink intensifying as the flower expands; delightfully tea scented. Valuable. Price, 25 cents each.

MELODY—A most charming and decidedly beautiful Rose, which attracted the attention of all visitors to our Rose gardens during the past summer because of its marvelous free-blooming qualities. The blooms are of good size; the color is an intense, pure, deep saffron-yellow, with primrose edges, a delightful color harmony. A Rose of the highest merits. Price, 20 cents each; two-year-old, 40 cents each.

MISS CYNTHIA FORD—This Rose possesses in a superlative degree the essential point of an ideal garden Rose, viz., form, brightness, vigor and habit. In color it is a deep brilliant rose-pink, very large, perfectly formed and very full. It is sweetly perfumed and lasts a long time in good condition. Gold medal, National Rose Society. Price, 20 cents each; two-year-old, 40 cents each.

MRS. AARON WARD—This Rose is a real joy to the grower and absolutely distinct. One of the most delightful Roses of recent years in a color that catches the eye at once. Coppery-orange in the open bud, golden-orange when partly developed, pinkish-fawn of lovely shade when fully open, when it looks like a full fluffy-silk rosette. No wonder everybody that sees it falls in love with it; one of the most beautiful Roses in existence. Price, 25 cents each; two-year-old, 50 cents each.

MRS. ALFRED TATE—The color of this Rose is perfectly fascinating and the form of bloom so distinctly perfect and exquisite in shape; the color is coppery-red, shaded fawn, with a distinct ochre-yellow shading at base of the petals. Fine for bedding or massing. Awarded gold medal, Bagatelle (Paris), 1910. Price, 25 cents each.

MRS. AMY HAMMOND—It has an extraordinarily deep, long, very pointed flower, probably the most perfect shaped and most graceful form of any Rose grown; has no equal among bedding or garden Roses. The color is a blend of ivory and amber shading; the amber color is most pronounced and develops to a bright apricot towards the base of the petals. Many blooms develop all over this apricot shading to such an extent that it is charming beyond description. Will be known as "Everybody's Rose." Awarded gold medal. Price, 25 cents each.

MRS. ARTHUR E. E. COXHEAD—In this magnificent Rose we have a new and distinct color among Hybrid Teas, and one very difficult to describe; claret-red, shaded vermillion towards the edge, with a wonderful bright silvery sheen towards the base of the petals, giving a distinct illuminated effect to the whole bloom. A truly great variety; awarded the gold medal of the National Rose Society. Price, 25 cents each.

MRS. ARTHUR MUNT—Suffused peach and deep cream, which becomes ivory-white as the flower develops; the blooms are large, full, and perfectly formed, with high pointed center and delicately tea scented. A delightful Rose for any purpose, but particularly valuable for the garden. Price, 25 cents each; two-year-old, 50 cents each.

MRS. ARTHUR ROBERT WADDELL—Rosy-scarlet buds opening reddish-salmon, reverse of petals rosy-scarlet; semi-double flowers. A good decorative variety. Price, 20 cents each, two-year-old, 40 cents each.

HYBRID TEA ROSES==Continued.

MRS. JOSEPH H. WELCH—The color of this wonderful Rose is a rich brilliant rose-pink. So distinct and rich a color has not yet been attained in any Rose. When known, we are certain it will be placed right at the top of its class. It is undoubtedly the largest Rose in cultivation, and the most perfect type of Rose the world has yet seen. Its rich, brilliant color, perfect shape and gigantic size will compel attention in any Rose garden; awarded the gold medal of National Rose Society. Price, 35 cents each.

MY MARYLAND—An American Rose that has jumped into popular favor at once, sweeping the decks of both Europe and America clean. Color glowing, intense pink; large, full and of fine form. The freest Rose in growth and bloom that we know. Price, 20 cents each; two-year-old, 40 cents each.

NATALIE BOTTNER—Color delicate cream-yellow; a flower of wonderful finish in the way of "Kaiserin," very vigorous, but nevertheless most floriferous. It combines the prominent qualities of the two celebrated Roses, "Druschki" and "Kaiserin." This novelty is much superior to them. This is an absolutely first-class Rose. Price, 25 cents each.

OLIVIA—The ideal red bedding Rose; was always just a little ways ahead—never quite reached. Such varieties as Meteor, Helen Gould, General McArthur, Gruss an Teplitz, Etoile de France each lack something to make them ideal. Rhea Reid came nearer the mark in some localities, but now comes Olivia, coming under the wire first an easy winner. It has more petals in it than General McArthur and is a shade lighter in color than Rhea Reid, but has them both backed off the boards when it comes to free blooming. A superb Rose. Price, 20 cents each; two-year-old, 40 cents each.

PHARISAER—This is a great Rose, but has not been offered to any extent in this country. There is never a Rose exhibition in England that this Rose does not have to be taken into account. The color is a rosy-white, shaded salmon; large, full and well formed; very free blooming. Price, 20 cents each; two-year-old, 40 cents each.

POLLAERT ROSE—This is the much-heralded Improved La France. The claims made for it are that it is a stronger grower, and that the fragrance is more pronounced. Price, 20 cents each.

PRESIDENT TAFT—This Rose was raised in Cincinnati, the home of President Taft, and let us say right here, while some of you may not admire the President himself, you will, one and all, admire the Rose given his name. It is without question the most remarkable of all pink Roses. It has a shining, intense, deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Our Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose President Taft, and then you will not say enough." Do not confound this Rose with Leuchtfleur, which some have attempted to rename President Taft. Price, 25 cents each; two-year-old, 50 cents each.

PRINCE ENGLEBART CHARLES DE ARENBERG—Erect, vigorous growth; buds and flowers of large and perfect form, being long and pointed; massive petals. Color brilliant fiery-scarlet. We think well of this Rose, and it is bound to have a future. Price, 25 cents each; two-year-old, 50 cents each.

QUEEN BEATRICE—One of the very finest bright pink Roses, the color being very clear, very much the shade of Mrs. Robert Garrett. Buds and flowers are of fine form, very free in bloom. A grand Rose. Price, 20 cents each; two-year-old, 40 cents each.

ROBIN HOOD—For description, see first page; also for this Rose in colors, see first cover page. Price, 25 cents each; two-year-old, 50 cents each.

SENATEUR MASCURAND—For description, see first page; also for this Rose in colors, see first cover page. Price, 25 cents each; two-year-old, 50 cents each.

SOUVENIR DE GUSTAVE PRAT—Color clear sulphur-yellow, without any other coloring; very charming in tint; bud long and oval, opening into a very large flower that is fairly full. A fine garden Rose. Price, 20 cents each; two-year-old, 40 cents each.

It has long, pointed buds, which can be cut tight for market. The color is orange-copper or golden-orange and golden-yellow; edge of petals lighter; all intense shades, extremely brilliant in effect. Belongs in the class of big Roses; has created a sensation wherever shown. Price, 35 cents each; two-year-old, 75 cents each.

THERESA—Deep orange-apricot, passing to madder-pink with carmine splashes. As the flower expands it becomes crueved flesh-pink passing to silvery-pink. The flowers, which are semi-double, are produced continuously in the greatest profusion, and are delicately tea-perfumed. A most charming garden Rose of undoubted merit. Price, 25 cents each, two-year-old, 50 cents each.

VISCOUNT CARLOW—During the flowering season the plant is virtually garlanded with chaste, highly tea-scented blooms, and will therefore prove to be an ideal bedding variety. The color is warm carmine-pink, stained on deep cream; the stiff shell-shaped petals, whilst developing, being distinctly edged carmine. Price, 25 cents each, two-year-old, 50 cents each.

WHITE KILLARNEY—A sport from Killarney. Grand in every way. The white forcing Rose of the century. Superior to its parent in every particular. Words cannot describe its imposing grandeur. This is the greatest forcing Rose of any color or class. Benches of it during the winter give the appearance of a bank of snow. It is pure white in color, long in bud, of fine form; in fact, it is the one Rose par excellence. Planted in the garden it comes with a delicate pink tinge that if anything adds to its beauty. A great acquisition and a really wonderful Rose. Price, 20 cents; two-year-old, 40 cents each.

WHITE TESTOUT—This is identical with Madame Caroline Testout, except that the color is pure white. A grand novelty. Price, 25 cents each.

WILLIAM SHEAN—Purest pink, petals shell-shaped, four to five inches long; flowers of immense size and substance and of perfect form; free blooming and distinct. Gold medal, National Rose Society. HELEN GOULD—This is a grand Rose of the very highest merit for the garden; bright watermelon-red; very free grower and bloomer. A good all-around red Rose.

JOHANNES WESSELHOFF—The color is a clear, lustrous yellow, varying somewhat in richness and depth, according to the season of the year; similar in growth to Kaiserin Augusta Victoria; upright and symmetrical, throwing long flower shoots amply able to support the flowers without drooping; a most persistent bloomer. Price, 15 cents each.

KAISERIN AUGUSTA VICTORIA—Pure white, with shadings of primrose-yellow, deeper in the center; a distinct and very beautiful variety.

KILLARNEY—The finest pink forcing Rose ever introduced. In coloring it is especially beautiful, being an exquisite shade of deep seashell-pink. The buds and flowers are of enormous size, the petals being frequently two and one-half inches deep.

LADY BATTERSEA—The Red Kaiserin. In the English gardens this Rose is very popular, its novelty and charm lying in its unusual coloring and its long, graceful buds; called appropriately the Red Kaiserin. The buds are full and pointed and of a beautiful cherry-crimson, permeated with an orange shade. We recommend this as one of the easiest and best. Price, 15 cents each.

LA DETROIT—Shell-pink, shading to soft rose. A beauty.

LA FRANCE—The Queen of all the Roses. Beautiful bright silvery-pink with pale lilac shadings, over the entire flower a satiny sheen. Large, full and fine form; one of the sweetest-scented Roses. Most free blooming.

A Yard of Testouts.

DR. J. CAMPBELL HALL—Coral-rose, suffused white; base of petals yellow; flowers large, full and perfectly formed; very free. A charming Rose.

DUCHESS OF ALBANY—A deep-colored La France; flowers large and globular; a first-class Rose.

ETOILE DE FRANCE—The gold medal Rose of France, and claimed by the raiser, J. Pernet Ducher, of Lyons, France, to be the finest Rose he has ever sent out. We believe, with him, that it has no superior. The flowers are very large and borne on good, long, stiff stems; color a lovely shade of clear, red-crimson velvet; very fragrant and keeps well. In England, where it has been tried extensively during the past season, it has caused quite a sensation. Our opinion is that it will become as much of a favorite as La France. Keep your eye on this variety, as it is a stayer and altogether a grand variety. It is a good grower, a free bloomer, fine rich color, deliciously fragrant. What more can be said of a Rose? Price, 15 cents each.

FLORENCE PEMBERTON—Creamy-white suffused pink; large, full, perfect in form with very high pointed center; very fine. Gold medal, National Rose Society.

TEA SCENTED ROSES Newer Varieties

The original blush Tea Scented Rose. A variation of the China Rose; was imported from China in 1810. In combination with the yellow China, or Tea Rose introduced in 1824, it has been the origin of all the splendid varieties we now possess. Tea Roses are distinguished from others by the delightful fragrance of the flowers and by the delicate shades of yellow, nankeen, salmon, copper wanting in Hybrid Perpetuals. They bloom in great perfection during the entire summer and autumn, being especially fine during the autumn months.

ALEXANDER HILL GRAY—The respect of all Rose lovers warrants the issuing of a champion Rose, and a tea at that, to pay due homage to one of the world's greatest Tea Rose growers. It is wonderfully floriferous, every shoot being crowned with a flower bud, which develops into a bloom of very large size, great substance and perfect formation, with high pointed center from which the petals gracefully reflex. The best and largest pure yellow Tea Rose yet introduced.

Its color is a solid deep throughout, "Marechal Niel"-like lemon-yellow; strongly tea-scented. Gold medal, National Rose Society. Price, 35 cents each.

ALTHEA—Very beautiful opaque salmon-pink; base of petals shaded with orange and outside flushed rose; very large and full; of vigorous growth. The flowers produced freely. A handsome Rose. Price, 25 cents each; two-year-old, 50 cents each.

TEA SCENTED ROSES, Newer Varieties==Continued.

HUGO ROLLER—Large, full and beautifully formed petals nicely reflexed at the edges; center high and pointed; color rich lemon-yellow; petals edged and suffused with crimson; a Rose of great beauty, and extraordinary lasting qualities. Will become popular. Price, 25 cents each.

HELEN GOOD—This is a true Cochet Rose, a sport from Pink Maman Cochet, and after several years' trial in the garden we pronounce it as good, if not better, than any Rose for the garden ever sent out. We bought the entire stock of this Rose from the introducers, paying them \$1,000 for two plants, this being by far the highest recorded price ever paid for any Rose. The color is a delicate yellow suffused with pink, each petal edged deeper; very chaste and beautiful. The color, with its immense size and exquisite form, makes it without question the greatest Tea Rose ever introduced, and we are proud to have brought it out. Be sure and try it. A genuine Cochet. We are receiving letters every week praising this Rose as being a wonder. It grows, it blooms, and there is nothing finer. Price, 20 cents each; two-year-old, 40 cents each.

LADY ROBERTS—Color, rich deep apricot; base of petals coppery-red; edges of petals shaded orange; bud long and pointed. A most beautiful Rose. Awarded gold medal, National Rose Society. Price, 20 cents each; two-year-old, 40 cents each.

LENA—The color is a beautiful tint of glowing apricot, edges of petals assuming a primrose-yellow as the flower ages; bud long and perfectly formed; very free bloomer; grand bedder. Price, 20 cents each; two-year-old, 40 cents.

LADY HILLINGDON—At the Detroit Rose show in January, 1912, this was awarded the sweepstakes over all yellow Roses. It has long willowy stems that are in no sense weak, as the buds are held upright; has a long slender pointed bud of brilliant deep golden-yellow, and a striking peculiarity of this Rose was that each day of the show this golden-yellow color became deeper yellow and more intense, unlike all other yellow Roses of which we are familiar, as invariably the tendency after being cut is to get lighter in color. This Rose at no stage of its development shows this lighter color as does Sunburst and other of the yellow Roses, but is always an even, deep intense golden-yellow; forces well. Awarded gold medal, National Rose Society. Price, 25 cents each; two-year-old, 50 cents each.

MADISON—This is the "money maker" among the cut flower Roses, and is a greatly improved Bride, and when we say improvement, we mean a genuine improvement. The best feature of Madison is that the foliage does not mildew. Then after being planted and well established Madison will cut as many flowers as Killarney, cutting steady each month in the year. Madison is a grand addition to our forcing Roses. Remember, that "Madison" is the money maker. Also a grand bedder. Price, 30 cents each; two-year-old, 60 cents each.

MISS ALICE DE ROTHSCHILD—Read what the introducer says: "Not since the advent of 'Marechal Niel' has any Rose excited such admiration as this truly magnificent variety, which, as seen growing and flowering in our gardens was described by leading professional Rose growers as a bedding 'Marechal Niel,' and up till the present time, our very best effort. A very flattering character, indeed. The color is rich, deep, citron-yellow, which intensifies as the bloom expands. This color does not fade. The flowers are very large, full and of perfect form, with high pointed center. The petals charmingly reflex. The growth is vigorous and erect, and it is free and continuous in bloom, deliciously fragrant (Marechal Niel perfume); superb in every respect." Messrs. Joseph Campbell and Philip Kreigbaum, both of whom have spent the greater part of their lives with Roses, say: "Miss Alice de Rothschild is a wonder. You can put your last dollar on her being a winner." 35c; two-year-old, 75c each.

MOLLY SHARMAN CRAWFORD—Delicate eau de nil white, which becomes as pure white as the driven snow as the flower expands; large, full, perfectly formed; delightfully perfumed; very fine. Price, 20 cents; two-year-old, 50 cents.

MRS. FOLEY HOBBS—This is beyond question the best Tea yet introduced, as it possesses in a most marked degree every

quality necessary to constitute a good and perfect Rose. It is a veritable giant among Teas. The huge thick shell-shaped petals creating a bloom of exceptional merit; color delicate ivory-white, faintly tinged pink on the edges of the petals. Deliciously perfumed. This Rose stands without a rival. Price, 25 cents; two-year-old, 50 cents.

MRS. HERBERT STEVENS—In this marvelous variety we have probably the most important addition to this class yet raised. The bloom is as long and even more pointed than any of the "Maman Cochet" family; faultless in shape and form; a flower of exquisite grace and refinement; color, white with a distinct fawn and peach shading towards the center; a sterling novelty of distinct tea fragrance; unsurpassed. Awarded the gold medal, National Rose Society of England in 1910. Price, 25 cents.

MRS. HUBERT TAYLOR—Shell-pink, the edges of the petals being ivory-white; a really superb Rose of perfect formation and finish, and erect, vigorous growth, with continuous and free flowering propensities; a very chaste and charming variety and quite distinct. 25c; two-year-old, 50c each.

NITA WELDON—Ivory-white with the edges of each petal tinted faintest blush. It has more delightful phases of beauty in its several stages, from the bud to the fully developed flower; the flowers which are produced in marvelous profusion are of large size, very full, and of globular form, the buds being long and pointed, vigorous growth and perfect habit. Awarded the gold medal of N. R. S. Price, 25 cents; two-year-old, 50 cents.

PAULA—A vigorous, free Tea Rose, most deliciously fragrant; habit erect, buds well shaped, sulphur-yellow with ochre center; like a better Etoile de Lyon. Price, 20 cents; two-year-old, 40 cents.

Madison Rose.

RECUERDO DE ANTONIO PELUFFO—What Soupert & Notting say about this fine Rose: "Madame Melanie Soupert crossed with Madame Constant Soupert, light diaphanous yellow with pink edged petals, exceedingly large, very double and of irreproachable form; free flowering until late in autumn; opens freely; combines all the delightful and prominent qualities of the parents; a strong, hardy Rose with nice long buds. A classical Rose and a wonderful Rose in many ways." We indorse every word of the above. Our individual opinion is that this Rose has come to stay. Price, 35 cents.

ROBERT HELLER—A seedling from Perle des Jardins. Most brilliant and beautifully formed yellow Rose ever introduced; vigorous and thrifty. Is never out of bloom all summer. Price, 25 cents; two-year-old, 50 cents.

MRS. F. W. FLIGHT—Beautiful pink with white center; semi-double, large trusses; lovely. Price, 20 cents.

RED DOROTHY PERKINS—(Excelsa.) It is a good deal to claim for a Rose, but we are within bounds when we describe Excelsa as a brilliant Crimson Rambler flower on glossy, varnished Wichuraiana foliage. The defects of Crimson Rambler are its unsightly foliage in unseasonable weather, and its defoliations by insects; the infusion of Wichuraiana blood assures an ornamental climber which is nearly evergreen, and this will assure this lovely crimson-scarlet pillar Rose a place in every American garden, for it is quite hardy in addition to all its other fine points. If you want the best red climbing Rose, plant Red Dorothy Perkins. Price, 25 cents; two-year-old, 50 cents.

HARDY CLIMBING ROSES, Newer Varieties==Continued.

TAUSENDSCHOEN or THOUSAND BEAUTIES—A climbing Rose that comes to us from Germany. The flowers upon first opening are the most delicate shade of pink ever seen in a Rose, might be described as a white delicately flushed pink changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring; beautiful; will become as famous as Crimson Rambler or Dorothy Perkins. We wrote the above a year ago, and now we can add that this Rose is sweeping the country like a prairie fire. You can word paint all you want to and then you will have left something unsaid. Simply a wonder. Price, 20 cents; two-year-old, 40 cents.

VEILCHENBLAU, The Blue Rose—The most wonderful Rose of the century for the reason that it marks a decided advance in the color of the Rose hitherto only dreamed of. Veilchenblau or Violet Blue is the proper name, but no doubt it will be known in America as the Blue Rose. This Rose is going to have a larger sale by far than Crimson Rambler. Have we seen it flower? Well, we guess yes, and

our word for it if you want something to cause you to stop and take notice, the Blue Rose will fill the bill. At a distance of fifty or hundred feet a bush of the Blue Rose in full bloom will startle you. A seedling from Crimson Rambler, semi-double flowers larger than that variety, produced in large trusses. This Rose first opens pink, but quickly changes to violet-blue. The introducer describes it as being reddish-lilac, changing to amethyst and steel blue. Very distinct and extremely pleasing. A wonder. Price, 20 cents; three for 50 cents; two-year-old, 40 cents.

WHITE DOROTHY PERKINS—(B. R. Cant, 1908.) It has been the cry of nurserymen for years for a white climber that would rank up with Crimson Rambler, and now we have the pleasure of offering this White Dorothy Perkins that in every way is the equal, if not superior, to Crimson Rambler as a red, and Dorothy Perkins as a pink. This Rose has no rival as a white climber. Price, 20 cents; two-year-old, 40 cents.

PERNETIANA ROSES

A new family of Roses; native of the south of Europe. These hybrids were introduced by a French grower.

The following varieties are all entirely new, and resist the coldest weather. They produce flowers in the greatest abundance with strange colors not to be found in any other section of Roses. We cannot supply these on their own roots, as they absolutely refuse to root from cuttings. We can only supply budded plants that we import.

ARTHUR R. GOODWIN—This is a genuine "Pernetiana," and is perfectly hardy everywhere. The color is coppery orange-red passing to salmon-pink as the flowers expand. A superb combination of color; flowers medium to large and full. Should prove a most valuable Rose. As this variety grows from cuttings, we offer it on its own roots. Price, 35 cents; two-year-old, 75 cents.

JULIET—A very distinct and attractive novelty, blooming both in summer and autumn. Strong, vigorous growth, with large and very double flowers; outside of petals old gold; interior rich rosy-red, changing to deep rose as the flowers expand. Of powerful and delicious fragrance. Has been universally admired wherever exhibited. A variety which is bound to create a sensation. Price, two-year budded plants, only \$1.00.

LYON ROSE—(Named in honor of the city of Lyons, France, where these Roses were given to the world.) Pronounced by experts to be the most important introduction of modern times. Flowers large, full and double, of remarkable substance; shrimp-pink, edges coral-red or salmon-pink, shaded chrome-yellow; exceedingly fragrant and perfectly hardy. Has been awarded the highest prizes at the many exhibitions in Europe. Price, two-year budded plants, \$1.00.

RAYON D'OR—(Rays of Gold.) This is the Rose that won the gold medal awarded by the city of Paris at the international exhibition of new Roses held at Bagatelle in 1907 and 1909. It has taken prizes of honor at a number of other places. Entirely hardy. Rayon d'Or is undisputedly the deepest of all the yellow colored Roses in existence. The bud is oval shaped, coppery-orange, streaked with brilliant scarlet bars. The open flowers are large, full, of fine globular form. Color on first opening superb cadmium-yellow. When fully expanded the color is a deep, brilliant sunflower-yellow, which does not fade. Produces its flowers in great profusion, and revels in all weathers. When massed it forms the most glowing decoration of the garden. An incomparable yellow Rose. Price, two-year budded plants, \$1.50.

SOLIEL D'OR—(Golden Sun.) This Rose is the first of a new race unique in habit of growth and color. The flowers are large and globular, very full, the center petals well incurved, giving a double effect. Color is a blending of golden-yellow and reddish-gold, shading to golden-orange and nasturtium-red. Deliciously fragrant. Very hardy and free-blooming. Price, two-year budded plants, 50 cents.

PRINCESS ADELAIDE—Deep blush-pink with buds that are thoroughly mossed.

PEONIES The King of Flowers

The wonderful improvement made during recent years in these old-fashioned hardy plants has brought them into renewed popularity. The gorgeous flowers, which rival the finest Roses in size, form and color, are produced in great abundance. After once being planted they require little care and attention, thrive anywhere, and are absolutely hardy even in the coldest climates; each year after planting they grow into greater value, producing more and more flowers. They are not troubled with insect pests. Try some of our fine Peonies, and see what grand flowers they are. Get it out of your head that there are only Red, White and Pink Peonies to illustrate at flowering time. People who visit our field will say, "I have Pink and White Peonies. I desire only Red ones," but when they are shown the Pink and White, they invariably exclaim, "How grand! I have none like them." There is as much difference in Peonies as there is in Roses.

CHOICE LIST OF PEONIES

ALBERT CROUSSE—Immense, very full, convex bloom, as perfect in outline and contour as a Show or Fancy Dahlia flower. The petals are imbricated like a Carnation, and overlap each other. The color is best described as an even, delicate, sea-shell pink, an unusual shade for a Peony, and is unapproached in this regard by any other variety. This grand Peony has all the points of excellence. A most striking flower. Price, 75 cents.

AMERICAN BEAUTY—Very brilliant crimson, full, double flowers on wiry stems; coloring is wonderfully rich and brilliant. This is known as the American Beauty Peony on account of the resemblance in color to the Rose of that name. Good cut flower, red. Price, 50 cents.

ASA GRAY—Large, full imbricated rose-formed bloom; guard petals salmon-flesh; center very full and perfectly formed; color lilac sprinkled with minute dots of deeper lilac; striking, imposing and beautiful. No Peony produces more flowers; fragrant and distinct. Price, 75 cents.

AVALANCHE—Avalanche, in our estimation, is one of the finest Peonies grown. Large, convex bloom of perfect form; color milk-white with cream-colored center; has ruby-colored markings of rare delicacy and beauty on some of its petals. A superb Peony. None better. Price, 75 cents.

BALL OF SNOW—Large cup-shaped bloom of good substance and perfect form. Color white with sulphur center, bordered carmine; erect, tall grower; fine cut flower variety; follows Festiva Maxima. Price, 50 cents.

BERLIOZ—Enormous, full, globular, imbricated bloom, bright currant-red center tinted rose, and shaded with amaranth. The petals are distinctly tipped silver. A very showy and beautiful Peony. Price, 50 cents.

CANARI—Primary petals white, flushed pink with deep primrose-yellow center; sweetly fragrant; tall grower. Price, 35 cents.

CROWN OF GOLD—This is the famous Crown of Gold; immense, fine shaped bloom; color, snow-white, reflecting golden-yellow, with a circle of golden stamens showing through the petals, lighting up the whole flower, and which suggests the name; delicate carmine edges on a few central petals. The attainment of perfection in Peonies. Price, 75 cents.

Peony Festiva Maxima in full bloom.

DUCHESS DE NEMOURS—Blooms several days after Festiva Maxima. Superb cup-shaped, sulphur-white flowers with greenish reflex that lights up the entire flower; gradually changes to a pure snow-white without spot or blemish. In all Peonies there is nothing so exquisitely chaste and beautiful as this variety in the half open bud state. In growth it is entirely distinct, being upright and branching. Certainly a grand Peony. Price, 35 cents.

DUKE OF WELLINGTON—Two rows of large, broad, guard petals of pure snow white. Center of flower sulphur-white. The flower is of enormous size. Our three-year plants will measure eight inches. It is pyramidal in shape. A flower you will never forget. Price, 50 cents.

EDULIS SUPERBA—Beautiful brilliant pink, with silvery reflex; large, well-formed, full flower on strong stem; blooms early with Festiva Maxima, and is a good sort to plant with that variety. Price, 35 cents.

EXCELSIOR—Bright, rich, deep, crimson of velvety texture. One of the best of the red Peonies. Price, 35 cents.

FELIX CROUSSE—All Peony enthusiasts are familiar with the fact that it is difficult to get a red Peony that is a self color; that is to say, a full, rich, even shade of red without being suffused with violet, purple or crimson shades. Felix Crousse fills the bill. Its large, globular flowers, solid and compactly built from edge to center, are a rich, even, brilliant, dazzling ruby-red. Exceptionally fiery, bright and effective. Both the color and size is startling. We place this in the front rank of all the red Peonies. As a general purpose red none better. Price, 75 cents.

FESTIVA MAXIMA—This is not only the finest white in existence, but many regard it as the queen of all the Peonies. Mr. Harrison says: "This flower has reached the ultimate beyond which we cannot go. Here at the door stands Festiva Maxima, white as the soul of the Madonna, with now and then a blood drop, as though the iron had sometime entered her heart. What a marvelous flower!" It combines enormous size with wondrous beauty; often seven to eight inches in diameter. Clear carmine spots on edge of center petals. For over sixty years it has held first rank, and is still the standard of perfection by which all other Peonies are judged. Price, 50 cents.

FLORAL TREASURE—Very large, full flowers of clear, even pink, shading lighter at the center; very delicate color. "A splendid hemisphere of fragrant loveliness." Long stems uphold the big, handsome blooms. Almost seven inches across; a most unique and charming variety. Fine for cut flowers. Price, 50 cents.

GIGANTEA—Enormous flowers six to seven inches across on long stems; color the most exquisite shade of bright pink, tipped with silvery-white, reflecting a silvery sheen; deliciously fragrant. Fully as effective for decorative purposes as the largest and showiest Chrysanthemum. Gigantea is a ravishingly beautiful wild flower. A wonder. Price, 75c.

GOLDEN HARVEST—A most striking variety producing large, tricolored bloom. The guard petals are bluish-pink with creamy-white center; center of flower overlaid and tipped with carmine. It combines cream, gold, white, pink, salmon, peach and apricot, the total color effect of the flower being creamy-pink; strong, delicate fragrance. Mr. Harrison says: "It breaks out into a wild, rollicking prodigality of beauty with its large flowers as to almost smother the plant so great is their profusion. We all take off our hats as they pass by and cheer for beauty." Price, 75 cents.

HUMEI—Very large, compact flower that is quite striking; color, cherry-pink, highly cinnamon scented. This is an old standby, being used largely for cut flowers. Price, 35 cents.

Peony, La Tulipe.
(See description on next page.)

CHOICE LIST OF PEONIES==Continued.

JENNY LIND—Large bloom on long stems; tall grower; free bloomer; color light pink with silvery reflex with narrow white petals interspersed with the center petalage; a most striking variety. Price, 50 cents.

LADY DERBY—A very tall, strong growing plant, bearing flowers of gigantic size, very double and full, borne in immense clusters; color pure white overlaid with a flush of delicate pink, tinged yellow at the base of the petals. A plant of this Peony in full bloom will startle you, and is a sight never to be forgotten; extra fine. Price, 75 cents.

LADY LEONORA BRAMWELL—Very large, full, compact flowers; uniform color of bright violet rose, with silvery-reflex that is very brilliant; has an occasional carmine spot on central petalage. Don't forget this one. Price, 50 cents.

LA TULIPE—Enormous, globular, fragrant flowers, delicate bluish-white, shading to ivory-white, with red tulip markings on outside of guard petals. Again we quote Harrison: "There is no Peony so attractive in bud as this. First a ball interlaced with green, red and white. As it grows these interlacings become pronounced. There is no bloom whose unfoldings you watch with greater interest. It finally opens a solid ball of softest blush with streaks of carmine. There it sits in all its beauty, a glorious flower in a chalice of veined marble, emitting a delightful perfume." Price, 75 cents.

LEVIATHAN—Flowers of remarkable size and freshness in huge clusters, full and double, of unusual perfection of form. Color, apple blossom-pink, with each petal silver tipped. Fragrance agreeable and penetrating; magnificent. Price, 50 cents.

LOUIS VAN HOUTTE—Very fine, shapely bloom. Color, bright violaceous-red of dazzling effect; superb. Price, 35 cents.

MADAME DE VERNEVILLE—Bomb type, early. One of the most charming varieties on the market. Guard petals are pure white, very large and folding over the flower; the blooms are very full and double, of the purest white suffused with faintest blush except a few cream-colored petals and four red flakes on central petals; exceptionally free. We have counted sixty-five large, perfect blooms on one plant open at the same time. Certainly a wonder. Price, 35 cents.

MARIE JACQUIN—What shall we say of this large, glorious flower? Color glossy rosy-white, with rose tinge on buds, with a great wealth of golden-yellow stamens in the center, which gives it a very chaste and elegant appearance. When first planted the blooms come single, but after becoming established it is semi-double. The flowers of this charming variety suggest our native white Water Lily; fragrance very rich and languorous. This is quite dissimilar from all other Peonies and is a prime favorite with everybody, especially the ladies. Price, 50 cents.

MARIE LEMOINE—Undoubtedly Calot's masterpiece. The flowers are enormous and massive. Color ivory-white with occasional narrow carmine tracings on edge of some petals. The gigantic blooms come very late on stout, erect stems standing well above the foliage. A good commercial variety, and a sort the Peony enthusiast raves over, and well he may. Price, 75 cents.

MARIE STUART—Good sized flower; guard petals broad; color soft pink, center sulphur-white with a prominent crown flecked with crimson; fragrant. Price, 35 cents.

MASTERPIECE—Brilliant Tyrian-rose; free bloomer; a very distinct and beautiful variety; fine grower. Price, 50 cents.

MONSIEUR JULES ELIE—This is the king of all Peonies, and is without question M. Crousse's masterpiece. Immense globular, very full flowers. Color an ideal glossy lilac-pink, shading to deeper rose at the base, the entire flower overlaid with a sheen of silver that fairly shimmers in the sunlight. Monsieur Jules Elie is the largest of all Peony flowers. On young, vigorous plants we have had flowers eight and nine inches through. In fact they are so large and handsome that but few can realize they are Peony blooms on first seeing them. An unapproachable variety from any standpoint. When cut in the bud a good keeper. Price, 75 cents.

MONT BLANC—Large, perfectly formed, snowball-shaped flowers; white guard petals, center sulphur-yellow; perfect habit; foliage and growth both quite distinct; follows Festiva Maxima and ranks with it. Fine for cut flowers; very free bloomer. The yellowest of all Peonies. Price, 35 cents.

PRINCE IMPERIAL—Flowers very double and full; color, deep, brilliant velvety-crimson. It makes a handsome plant, every flower standing up straight and erect well above the foliage. We think this one of the finest Peonies, probably the best general purpose crimson. Price, 50 cents.

QUEEN VICTORIA—The very best every-day white. When cut a first rate keeper. Flower of good substance and color; very pretty in the bud state, when it has a faint blush tint; an old standby. Price, 35 cents.

SEA SHELL—This is one of the grandest of Peonies, a tall grower, and is such a free bloomer that it completely hides the plant; the coloring is so refined as to instantly arrest attention, being a delicate, soft lilac-pink, with delicate but distinct rosy-pink spots difficult to describe. This is in every way a superior Peony. Price, 75 cents.

VICTOIRE TRICOLEUR—A tricolor bloom that has many admirers; color a combination of rose-pink and salmon, intermingled; an excellent bloomer. Price, 35 cents.

VICTOR HUGO—Extremely large, showy, perfectly built bloom; primary petals narrow and built up close and high; color very deep, rich, brilliant solferino-red. Indispensable. Price, 35 cents.

TREE PEONIES

This is a remarkable species, developed from Peony Mouten, a native of China and Japan. In habit of growth it is not unlike a deciduous shrub—the growths are short and stocky, the plant eventually attaining a height of four or more feet and of large circumference; the foliage is quite handsome, and the immense flowers, which usually appear some two weeks ahead of the herbaceous class, are most remarkable for their immense size and gorgeous colorings. Splendid for grouping or for specimen plants on lawns. While a hardy plant, it will be found desirable to give it some protection in very cold latitudes. All shoots springing from the base should be rubbed off; any color you desire. Price, 75 cents; two for \$1.25.

Remember that so long as we can ship Peonies safely during the spring months we will do so; after it becomes too late we will file your order for them and ship in the fall time.

BEAUTIFUL FERNS For House Culture

There are no plants grown that are more desirable for the house than these fine decorative Ferns. They are easily grown, free from insects and disease, and thrive well in the ordinary temperature of the living-room. See that the plants have plenty of drainage and are kept well watered; never let dry out for any length of time.

ROOSEVELT (Nephrolepis Roosevelt.) (New.) The Grandest and Greatest of all Ferns. There is absolutely no Fern to compare with this charming new variety. For full description see first page of this book. Also see fourth cover page for this Fern shown in a painting. It is a wonder. Fine young plants, 35 cents. Strong plants, 75 cents; extra strong plants, \$1.25.

THE NEW CRESTED FERN (Nephrolepis Scholzei.) This is the great Crested Fern that has set all the Fern lovers to talking. Everyone admires it and sings its praises. The growth is bushy and compact, each pinna is crested, giving it a distinct and unique appearance. This Fern is a model of beauty. Fine young plants, 30 cents.

THE FLUFFY RUFFLES FERN (Nephrolepis Superbissima.) This new Fern is quite different from all other Ferns. Its distinguishing characteristics are its dark green foliage, darker than any other Fern, its dense growth being much more compact, and its irregular shaped fronds which gives it the name of "Fluffy Ruffles Fern." The fronds are very heavily imbricated, the pinnae overlapping and are so formed as to resemble miniature Ferns, giving it the appearance of a Fern within a Fern. The plant is very sturdy in its habit and the fronds firm and rigid, never break down, so that it will stand more knocking around than any other Fern. The possessor of this new Fern has a distinct and different plant from all the other Ferns. It is a plant that needs to be seen to have its great value and sterling qualities appreciated. Fine young plants, 30 cents each. Strong plants, 65 cents each.

Fronds of the New Roosevelt Fern, showing wavy effect.

PHILADELPHIA LACE FERN (Nephrolepis Elegantissima)

This without question stands in a class by itself among Ferns. It belongs to the true Ostrich Plume type of Fern, and has this decided advantage over the others of never reverting to the Boston type. Its fronds are long, graceful and airy, resembling delicate lace. A most remarkable variety, a perfect jewel amongst Ferns. Do not fail to get this. Fine young plants, 25c. Strong plants, 65c. Extra strong plants, \$1.00.

BEAUTIFUL FERNS==Continued.

THE NEWPORT FERN (*Nephrolepis Scottii*.) This Fern is all the rage at fashionable Newport. Identical with the Boston Fern, except it is smaller in all of its parts, and more compact, and will make more fronds in a given length of time. The fronds are lighter green than any of the *Nephrolepis*. The plants are never straggly, always making a shapely plant. Fine young plants, 25 cents. Strong plants, 60 cents.

THE TARRYTOWN FERN (*Nephrolepis Piersonii*.) An entirely new form of the Boston Fern. The pinnae subdivide, making miniature fronds which are superimposed on the main fronds, looking as if two or even three were condensed in one, giving the plant a graceful, feathery and plummy effect. This plant took the only gold medal ever awarded by the Society of American Florists. Fine young plants, 30 cents.

THE OLD ORIGINAL SWORD FERN (*Nephrolepis Exaltata*.) This is the parent Sword Fern from which all the *Nephrolepis* in commerce sprung. The fronds are narrow, and grow upright, making it a most useful variety on this account for centers of vases, for which purpose it is used by the florists by the thousand. Fine young plants, 25 cents.

The Wonderful New Fern BABY'S BREATH (*Nephrolepis Goodii*.) This has the finest foliage of all the Ferns. It is so delicate that a lady on seeing it exclaimed, "Call it the Baby's Breath Fern, as it is so dainty in texture that a baby's breath would set its fluffy foliage in motion." It gives the impression of fine lace work, and has been named in the East the Philadelphia Lace Fern. It is a much finer Fern than *Nephrolepis Amerpohlii*. Whatever name you call it by, it is a beauty. Our reputation for it that no Fern in existence can compare with it in fluffiness. Fine young plants, 35 cents. Strong plants, 75 cents each.

THE OSTRICH PLUME FERN (*Nephrolepis Whitmanii*.) A great Fern. In fact, it is a plant that appeals to everyone, and on that account will prove a much more valuable and profitable plant than the Boston Fern, which has had the most phenomenal sale of any decorative plant that has ever been grown, but which cannot be compared to the Ostrich Fern for beauty and general effectiveness. Everyone who has seen it is charmed with it. As someone has expressed it, "There is nothing like the Ostrich Plume Fern in cultivation. In decorative effect it so far outdistances the original variety that there is positively no comparison to be made. We consider it the most valuable novelty that has been introduced in many, many years." It has taken gold medals wherever shown. Fine young plants, 25 cents each. Strong plants, 65 cents each. Extra strong plants, \$1.00.

BOSTON OR FOUNTAIN FERN (*Nephrolepis Exaltata Bostoniensis*.) In the vicinity of Boston no other plant is so extensively used as this graceful *Nephrolepis*, which differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch

and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. This Fern should not be compared to the Ostrich Plume Fern, as they are of an entirely different growth; both have their place and both are beautiful and desirable. Fine young plants, 20 cents. Strong plants, 50 cents. Extra strong plants, \$1.00.

THE FISH TAIL FERN (*Nephrolepis Davallioides Furcans*.) This is a grand Fern, entirely distinct from any of the other varieties of *Nephrolepis*. Throughout the South and especially at New Orleans this Fern takes precedence over all others. The ends of each pinna are so formed as to resemble a fish tail, giving the fronds a crested appearance, very effective. It grows into the most shapely plant of any of the *Nephrolepis*. Grand for house culture. Fine young plants, 35 cents each.

THE SILVER FERN (*Pteris Argyrea*.) This is called the Silver Fern from the broad line of silvery-white that runs through each frond. A most beautiful Fern. Price, 20c.

THE SHAKING FERN (*Pteris Tremula*.) The foliage of this variety is fine and graceful, and is much sought after. It grows rapidly and soon makes a handsome plant. Price, 20c.

HARDY PERENNIAL PHLOX

This is one of the most easily grown hardy perennials, and the large number of beautiful varieties now offered makes it especially desirable. These noble flowers are not only beautiful as individuals, but the cheerful appearance of our gardens during the summer and autumn months is much indebted to them. They succeed in any position or soil, and can be used to advantage either as single specimens in the mixed border or as large clumps or beds on the lawn. To produce the best results, however, they should have a rich, deep and rather moist soil, and let each clump have a space of from two to three feet in which to develop. They will continue to thrive for several years with little attention, as is attested by the fine clumps about old homesteads. The ease with which they are cultivated, their entire hardiness and the extended time of blooming, combined with the varied and beautiful coloring, make them especially valuable for garden planting. The Perennial Phlox usually commences to bloom in early summer, and are brilliant with color until after several frosts have come. They are admirably adapted for cemetery planting, also for a low hedge or screen to hide old fences and unsightly objects. Plant Phlox; they take care of themselves and get better each year. PANSY GERANIUM

A WONDERFUL PLANT

This new and beautiful Pansy Geranium is of the easiest growth, dwarf in habit, and literally covered with flowers all the time, and as it requires little or no attention, it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of flower. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. Strong plants, ready to bloom, 35 cents each.

SWEET-SCENTED GERANIUMS

APPLE-SCENTED GERANIUM—This has the true ripe apple-scented foliage. A great favorite. Price, 25 cents.

CARNATION PINKS, The Divine Flower

For beauty of flower and color, ease of culture, certainty and freedom of bloom, together with exquisite fragrance, this is well called the "Divine Flower." Plants in the open ground or in pots quickly make large specimens, and when brought indoors in the fall produce an abundance of flowers throughout the entire winter. Carnation blooms are expensive; don't buy them—grow them yourself. Pinch the plant back frequently during the summer season. In the fall bring indoors, place in a four or five-inch pot, keep in a temperature of forty to fifty degrees at night, and they will yield an immense number of flowers with splendid stems, as fine as those sold by florists. If not pinched in they will bloom profusely during the summer. We offer the finest varieties in existence. Your order is incomplete without some Carnations.

EXCELSIOR COLLECTION OF CHOICEST CARNATIONS

Price, 10 cents each; three for 25 cents; seven for 50 cents; set of nine Excelsior Carnations, postpaid, for 65 cents.

ABUNDANCE—Flowers very large and perfect in form; color a bright rosy-pink, with salmon shading when the flowers are fully expanded. A very healthy grower and remarkably free bloomer. Plant dwarf, growing about fourteen inches high. This we consider one of the best pink varieties ever offered, and an excellent variety for pot culture.

BON TON—This is by far the darkest Carnation ever seen, and at the same time the most abundant bloomer. Brilliant dark red, shaded with richest maroon, fringed petals, nearly every flower being on a long stem. This variety surpasses in richness of color the most perfect Jacqueminot Roses.

DELLA FOX—Its color is almost indescribable. Of a rosy-orange shade, striped and flaked with carmine, never bursts its calyx, is very free and early flowering, and can always be cut with a long stem, a most desirable feature in the colored Carnation nowadays.

ESTELLE—One of the most fragrant Carnations we have seen. Color a clear, bright, glowing scarlet; a most continuous bloomer and distinct in color from any other sort offered. Greatly admired by all who have seen it growing here.

GENEVIEVE LORD—As large as the largest light pink ever offered. A few blooms last season measured nearly four inches. It has taken first prizes wherever offered.

JUBILEE—Very dwarf, and of a nice, bushy growth, forcing very long flower stems, each individual flower possessing a stem varying from three to eight inches in length. It has perfectly formed flowers; color a rich, bright dazzling scarlet. We unhesitatingly recommend this sort.

MORNING GLORY—This variety has been greatly admired wherever it has been seen for its desirable color, being a beautiful light pink satin color; flowers large size and very freely produced. Plant of grand habit and vigorous growth. It is a superb variety.

WHITCOMB RILEY—The ground color is the faintest blush, lightly penciled in soft pink. The bloom is fluffy in appearance, exquisitely beautiful in form. One of the grandest of all Carnations.

WHITE CLOUD—This is the largest white Carnation in cultivation—often measures four inches in diameter. The flowers are of the purest white, with petals of great substance, making it one of the very best.

This Novelty Collection of seven Monthly ever-blooming
Carnation Pinks, 50 cents.

ADONIS—Another grand new variety so distinct that it stands alone. Awarded the Lawson Gold Medal, also the S. A. F. Medal at the Carnation Society's convention. The flowers measure three and one-half inches when well grown. Long, strong stems, two to three feet. A healthy, vigorous grower. But its color—a glowing scarlet-crimson, intense and fiery with its rich ox-blood shadings, far and away beyond all other Carnations.

ENCHANTRESS—The Great \$10,000 Beauty. The great forward stride in Carnations is made more manifest in this than in any other since the advent of the Mrs. Thomas W. Lawson. It was raised by the same grower, and he pronounces Enchantress superior to it. The flowers are three and one-half to four inches across when well grown. The color is a superb shade of rosy blush-pink.

GAIETY—Color pure white, with a few narrow pink pencilings about the edge and through the flower. Size large and full, form very round and symmetrical. One of the best producers, beginning to bloom early and continuing throughout the season without intermission.

HER MAJESTY—Purity of color fairly glistens all over this flower. Form is simply perfect, size large than any other white, stem the strongest and about thirty inches long. It is bound to become the standard white for both winter and summer blooming, as it will start blooming July 1st and continue until the same time a year later.

LADY BOUNTIFUL—Largest flowers of the purest immaculate white; large-sized blooms. Valuable for garden planting and for pot culture. Very sweetly scented with that delightful old-fashioned clove fragrance.

New Fancy Carnation, PROSPERITY—This is the largest Carnation ever offered. It is a wonderfully free bloomer, considering the monster size the flowers attain. White, overlaid with pink, in mottles reminding one of the beautiful tints seen in Azaleas.

The Sensational Carnation, MRS. THOS. W. LAWSON—The grandest pink Carnation, a true exhibition variety. Bloom large and spreading, stem stiff; a good grower. All newcomers will have to meet comparison with the Lawson. Very free for so large a flower. The Lawson is the queen of a class all her own, just as American Beauty is among Roses. No grower can afford to be without it. Thirty thousand dollars was paid for this variety; highest price ever paid for any flower.

OSTRICH PLUME CHRYSANTHEMUMS

Below we offer a grand collection of these Chrysanthemums. The term "Ostrich Plume" is applied to this type on account of the feathery growth with which the petals are thickly covered.

PRICE 15 CENTS EACH

LOUIS BOEHMER—A most beautiful shade of lavender-pink.
AUDREY (New)—Pure snow-white, ostrich plume. Elegant.

HAIRY WONDER—Enormous terra-cotta, broad, spreading Japanese variety, with extremely wide cupping and incurving petals, which are covered with glandular hairs. Reported as the largest and best hairy ever exhibited. Habit, stem and foliage perfect.

HARDY POMPON CHRYSANTHEMUMS

These beautiful varieties are again very popular for outdoor bedding purposes. They are quite hardy, and with but a slight covering of leaves or coarse stable litter during the winter will take care of themselves after once planted, and produce an abundant, almost lavish, profusion of bloom; and the plants lend a coloration to the garden just at a time when other plants have been destroyed by frost and are looking their worst. Frost does not materially affect the flowering, and it will frequently happen that an armful of flowers can be cut after a sharp frost.

DINIZULA—Rosy-lake; very fine.
ELEGANTA—Deep pink, tipped and edged white.
GOLDFINCH—Magnificent; gold, shaded crimson; extra.
GOLDEN FLEECE—Large, bright lemon-yellow.

ARAUCARIA EXCELSA

NORFOLK ISLAND PINE—Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm," from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star, but no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm. Indeed, as a decorative plant for the house, this is one of the handsomest and most serviceable plants in our collection. Strong plants, \$1.00 each; extra fine specimens \$1.50 each.

Araucaria Excelsa.

ASPARAGUS PLUMOSUS NANUS

THE CLIMBING LACE FERN—This graceful climber has to a great extent taken the place of the once popular Smilax in all fine decorations. It possesses the advantage of being much more graceful—its foliage being finer than that of the most delicate Fern—and will last for weeks after being cut, the whole plant being of a bright, cheerful green. Excellent house plant, succeeding under almost any conditions; by pinching back may be grown as a plant. Price, 10 cents each for fine plants; large, strong plants, 35 cents each.

ASPARAGUS SPRENGERI

THE EMERALD FEATHER—A most desirable species, especially useful to grow as a pot plant for decorative purposes or for planting in baskets or vases. The fronds are frequently four feet long, of a rich shade of green, and most useful for cutting, retaining their freshness for weeks after being cut. It will make an excellent house plant, as it withstands dry atmosphere and will succeed in almost any situation. Price, 10 cents each, three for 25 cents; strong plants, 25 cents.

ASPARAGUS HATCHERII

It would hardly be possible to praise this new type too much. It is of very rapid growth. The fronds are set closer on the stems than on Plumosus Nanus. Has already made a name for itself. Price, 20 cents.

ALBA PERFECTA GRANDIFLORA—We doubt if there is a white-flowered variety that equals it. The foliage resembles Rubra in shape, but it is lighter green, while the flower panicles are much handsomer. It is a pure white flowering Begonia of much merit.

ARGENTEA GUTTATA—It has purple-bronze leaves, oblong in shape, with silvery markings, and is in every way a most beautiful Begonia. Produces white flowers in bunches on ends of growth stems. Good for house culture.

The Wonderful New Flowering Begonia CORALLINE LUCERNE—This new Begonia has simply taken everybody who has seen it by storm. There was not a single lady or florist who visited our greenhouses the past spring that did not purchase this Begonia after they had seen it in flower. It certainly is a wonder. The blooms last from a month to six weeks, and are borne in immense clusters almost hiding the plant. The color is bright coral-red, changing to a delicate pink. MARGUERITE—Leaves a bronzy-green, somewhat resembling Metallica, but growing in more bushy form, and easier to handle when grown in pots. Large trusses of light rose-colored flowers freely produced.

New Trailing Begonia, MARJORIE DAW—This Begonia is distinct from all other Begonias, for instead of growing upright it droops. It bears great clusters of large, shining pink flowers that droop from long stems, making a beautiful sight. For single specimen pot plants or for baskets and vases "Marjorie Daw" is proving one of the best plant introductions in years. Price, 20 cents each.

PICTA ROSEA—A wonderfully free growing Begonia of sterling worth and great beauty. The plant is very compact in growth, forming a dense, well proportioned bush with rich green foliage, spotted with silver. It blooms continually. Price, 15 cents.

BEGONIAS

Begonias are fine to plant on the north side of the house or other building, or in front of porch where they get shade. The foliage, as well as the flowers, are extremely ornamental, some being spotted and veined to give a parti-colored effect that is quite striking. Begonias planted with Crotons give a wonderful foliage effect, and this is heightened with their lovely showy flowers.

New Giant Fancy-Leaved Coleus, Christmas Gem.

New Giant Coleus, Christmas Gem
(Brilliancy or Dr. Ross)

Leaves immense, eight to twelve inches long, looks like a Rex Begonia, and just as beautiful. Cannot be excelled as a pot plant. The name aptly describes the appearance of this variety, which belongs to the giant-leaved section; of strong, vigorous habit, growing from two to three feet high, with leaves often nine to ten inches long, which are of bright carmine, shading off to a deep maroon, the margin being yellow and green, the whole leaf having a rich velvety luster. Price, 20 cents each.

CROTONS

Nothing can excel the beauty and richness of coloring that is found in this class of plants. They are beautiful pot plants for the conservatory, making very handsome specimens for decorative and exhibition purposes. They are used extensively as bedding plants, for which purpose they are exceptionally well adapted. They should be planted in full sun, in a position where they can be more liberally supplied with water, which develops the most wonderful coloring in the foliage. Undoubtedly the most interesting and showiest bedding in our Springfield yards the past few years was made with this plant. They are fine for basket or vase work. Where we used to sell dozens, we now ship thousands. Leave the selection of varieties to us. We can supply twelve choice kinds. Fine plants, 12 cents each, three for 30 cents, \$1.00 per dozen.

CAMELLIA JAPONICA

Camellia is considered the queen flower of the South, and is called the "Japonica." During the month of May immense trees can be seen in full bloom, making the most gorgeous sights to behold. Their dark, shiny leaves contrast beautifully with the waxy-like blooms, which come in pink, white rose, carmine and variegated shades. No garden is complete without them, as they are also quite hardy in the Southern States and require no protection or care. They are called the Royal Family of greenhouse plants. Time of blooming is in winter and in early spring. Requires a moderate and uniform temperature, with as little artificial heat as possible. When set with flower buds great care must be taken in watering—when left too dry the buds are sure to drop. We offer splendid plants, bushy, well-grown specimens, and all in splendid health. The varieties are the best extant, the pick of a continental collection. Plants two to two and one-half feet high, \$1.00 each; the set of twelve distinct kinds for \$10.00; any four for \$3.75. All our Camellias are double-flowered. We can supply fifteen sorts other than the twelve named at same price, all fine varieties.

Our New Ponderosa Lemon is what we claim for it. Largest freest blooming, fruiting and most delicious of all Lemons.

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of the ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary. Ponderosa Lemon is sure to become popular when it is known. It fruits when quite small, and makes a lovely house plant. Everybody can grow his own lemons; it will fruit freely each year. The flowers are more than twice the size of the old variety, oftentimes measuring from six to seven and one-half inches across, and are produced in such wonderful profusion that they completely cover the vine with a veil of glistening white. Its growth is very rapid when planted in a good rich light soil, nothing to equal it as a tender vine for porch and lattice shading. Fine plants, 15 cents each.

TENDER BULBS

TUBEROUS=ROOTED BEGONIAS

These are among the very handsomest of our summer blooming plants, flowering throughout the season, and as fine and varied in their colors as the Geranium family. They are splendid bedders, delighting in a light soil of woods earth, very old cow manure and sharp sand. See that the bed is in partial shade, and you will be delighted with the results. In the South, or where they cannot be planted in the shade of a house, a covering of burlap or canvas some six or eight feet above them, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry. When through flowering they can be dried off, shaken free of earth, wrapped in cotton until May, when they may be started again.

SINGLE—White, yellow, crimson, rose, scarlet. Price, 10 cents, three for 25 cents, seven for 50 cents.

DOUBLE—In the same colors. Price, 15 cents, three for 40 cents, six for 75 cents.

CALLA LILIES

The New Godfrey Calla Lily, "DEVONIENSIS"—Undoubtedly the finest thing ever sent out in the Calla line, and quite indispensable. Blooms all winter. Compared with the ordinary Calla, it gives three blooms to one; is snow-white and perfect in form. Blooms on very small plants, though it attains to a very large size with very large flowers. Blooming bulbs, 30 cents each.

Black Calla, ARUM SANCTUM—This is the famous Black Calla; it grows so very easily and produces Calla Lily shaped flowers that in color are coal black. This Lily produces the blackest flower of any plant in existence. It is simply jet black; stock is scarce. Price, 30 cents each, two for 50 cents.

New Dwarf Calla, LITTLE GEM—This Calla only grows about eighteen inches high, and is the freest blooming of all the Callas. The bloom is pure white. The following facts will convince anyone of its great superiority over the old sort. Of dwarf habit. The same plant will grow and bloom for years, and the quantity of bloom which a good plant will produce is astonishing. A large plant is hardly ever without one or more flowers. All in all, it is one of the most desirable plants we ever offered. Price, 15 cents, two for 25 cents.

TENDER BULBS==Concluded.

PAN-AMERICAN GLADIOLI

GLADIOLI, The Pan-American—Our Pan-American mixture is the best in the world, and we want to say to you candidly that you have never seen Gladioli until you see these flowers. This mixture includes all the new strains, such as "Gray's Inglesides," "Burbank's California Selects," "Childsii," and "Groff's Hybrids." They are very tall and erect, often standing four or five feet high, with spikes of bloom over two feet in length. They branch freely, in most cases each stem producing three or four spikes of bloom, and bloom much earlier than ordinary varieties. The flowers are of great substance and gigantic size, frequently seven to nine inches across. The form of both flower and spike is perfection itself, and they last in bloom a long time before fading, owing to their great substance and vigor. But the most remarkable feature is the coloring. Orchids cannot surpass them in varied and delicate shades, markings and blendings. Every color known among Gladioli is represented, and many never before seen, particularly blues, smoky grays and purple blacks, all having beautifully mottled and spotted throats made up of white, crimson, pink, yellow, etc., and in this peculiar network of charming spots and colors lies one of its special points of unsurpassed beauty. They far out-rank all other Gladioli in size of spike, size of bloom, vigor, varied and magnificent coloring and freedom of bloom. planting in large masses in parks or for single plants on the smallest lawns. Blooms profusely from July until frost, in immense white panicles, tinted with pink and then with brown in the fully matured flower. The plant should be cut back each spring fully one-half of the past season's growth, as the flowers are much finer if the plant is treated in this manner. The flowers are much finer and larger if grown in a good, rich soil, but the plant is so hardy and easily grown that success is almost certain in any kind of soil and in any situation. Young plants, 15 cents, three for 40 cents. Strong flowering plants for immediate effect, two years old, 35 to 50 cents, according to size.
